

PREVENTATIVE MAINTENANCE OUTAGE

DATE: Tuesday, June 2, 2026
TIME: 9:00 a.m. – 3:00 p.m. (6 hours)

FEEDER: A portion of P-301
VILLAGE: Yona (Chalan Borja area)

AREA: Customers affected are along Chalan Borja (Borja Street) and Antonio Rosario Road surrounding areas.

SCOPE OF WORK: GPA Line crew will be replacing two 35' concrete poles with 45' concrete poles along Chalan Borja and changing out cross arms and hardware on two concrete poles along Route 4 Chalan Kanton Tasi.

WHY WILL MY POWER BE OFF?

GPA makes system improvements and conducts preventative maintenance to avoid future power outages. In most cases, the job can be done with no impact to customers; however, sometimes the power needs to be shut off in order for the crews to work safely. Isolating power lines are necessary for safety precaution. We understand that this can be inconvenient and uncomfortable. We are committed to keeping our customers and employees safe and we will turn the power back on as soon as we can.

WHAT CAN I DO?

- If you have a generator, make sure your main breaker is in the open position for the safety of our line crew.
- Have a plan for alternate power source for electrical medical equipment.
- Charge all cell phones.
- Minimize opening refrigerator and freezer doors during the outage.

FOR POWER EMERGENCIES, PLEASE CONTACT GPA POWER SYSTEMS CONTROL CENTER (PSCC) DISPATCH AT (671) 475-1472/3/4.

GPA appreciates your patience and cooperation.

Power to Serve!
